- b. In the “**Picture Object**” window click **Browse** to locate the Firms logo.

After the selection of the Firms logo the following options apply:

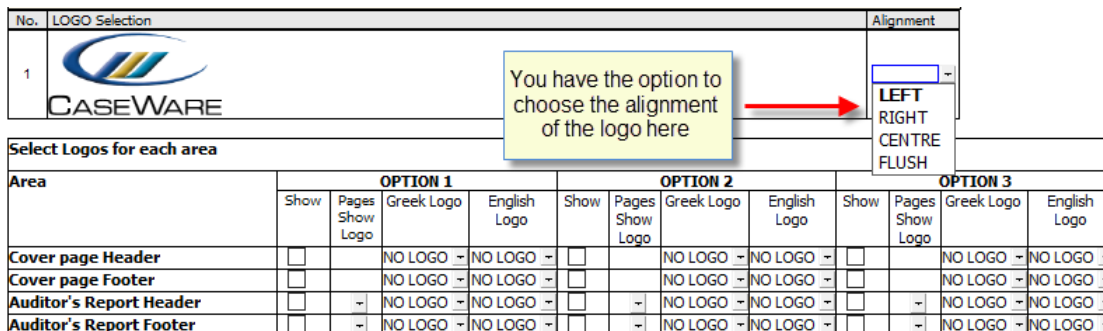

Resize picture: This option will enlarge or reduce the original size of the logo as required. Click the Resize picture tick box and proceed with the relevant changes. You can type or select the size of the logo as desired. In case you need to restore the logo to its original size then clear the tick box.

Keep Aspect Ratio: When selected, the logo returns to its original size.

When you have finished defining the picture object settings, click OK to save them.

- c. Choose how to align the logo using the **Alignment** options in the right column.

4. Insert Additional Logos

You can insert as many logos as required within the "Define Logos" sections by using the right click menu.

- a. If you require more than one logo in your documents, you can add lines in Logo Selection by right clicking on the number and choosing Insert Row.

You can define an unlimited number of logos for use in your client file. The right click menu allows you to insert, delete rows or clear row values.

- b. The same logo is copied in the newly inserted line. Follow the same procedure as defined above to define the Logo properties i.e. select the new logo, size, position etc.
